

SMS Trap Alert

Animal safety and ethical considerations dictate that animals are removed from traps as soon as possible to minimise stress and possible self-harm.

COST EFFECTIVE • TIME-SAVING • USER FRIENDLY • EASY INSTALLATION.

Be alerted when your trap has been sprung, with Titley Scientific™ Trap Alert.

The Titley Scientific™ Trap Alert trips a magnetic reed switch to trigger and send you a SMS message over GSM (mobile phone) network.

The device can notify you of an animal being caught from as far away as you wish, provided you are within a mobile phone network coverage.
